Brad, I understand all too well. Thank you...more importantly, thank you for your patience.

A heads-up, there is another set of documents (5) that will be hitting you all soon from the same EPA program office....just an FYI.

Thanks, Stephanie—I was pretty sure, but with all our backlog madness, I figured I'd better get an update nonetheless.

Also, let me check on whether EPA is still reviewing any markups from the series. I think 2020-05900 and 2020-5896 have yet to be finally approved. According to my account, they were sent over on May 27. I don't think I have, but it's entirely possible I've misplaced an email or two.

Hi Brad, the program office states:

Hi Stephanie, The OFR is correct. As indicated, we should make them all one year. Thanks for checking.

Stephanie Morris

Subject: RE: EPA 2020-05854: [EPA-HQ-OAR-2018-0416; FRL-10006-74-OAR]

Hi Stephanie and everyone,

I just want to re-touch base on the issue in this rule regarding the INSERT “365” and “366” DAYS date calculations. In this one, the program office left a comment in the markup saying to go ahead and make the 366 DAYS into 1 year. See message in yellow below.

But in the course of these, before I noticed a 366 day calculation, I just assumed the 365 ones should be 1 year instead. But if there is an intention of the 366 to be one day after the 365, then I should go back to the days format and calculate/plug in dates when I schedule. This email and the comment in the markup for this 2020-05854 indicate to make them all 1 year. Maybe that’s the latest—but given the delays on these etc., I’d like to be 100% certain before I make the changes.

Do you mind revisiting this real quick for me? Sorry to be inconvenient, but better to be sure now and not correct later.

Let me know if you need the markup you returned.

Thanks

Good morning Brad, attach is the response to one of the six documents that are a part of the series of Part 63 rules. The program office states the following:

Hi Stephanie, Please see our comment bubble responding to OFR discussion on page 157. We have changed the date instructions in Table 2 from 366 days to reflect 1 year. The change is made in redline/strikeout on pages 157 through 161. With this correction made, we approve the document for publication. Thanks.

Good morning all, the program office for the following documents have been working w/Miriam Vincent on the processing of their RTR packages that contain IBR and we will need to complete special handling letters for six of the actions. Can someone please provide OFRs document number for each corresponding document so we can update and complete our special handling letter(s). I have included a pdf of heading for each document. Thanks for your help.

Hi,

Ex. 6

Stephanie has returned all the markup and I'm now going through them. They are my priority today in the hopes of being done and setting them up. Yesterday was a clusterblank of emergency nonsense and I couldn't get to any of it.

I told her I'm going to set up sort of a publication map based on your order that makes sure no effective dates get shared by one or more falling on a weekend/holiday and bumping etc., and I'll send that over for approval by you all.

Brad:

Regarding this statement you made in your email below:

"I think I sent to FRLiaison address, but it might have been within communication on another doc."

You are correct regarding your statement above. You were communicating with Stephanie Morris on her document, Document number 2020-5854, FRL-10006-74-OAR. See attached. I found the email in the FR Liaisons email box, which you sent to Stephanie Morris too.

As you stated in your email below, you're up to date now on the six documents.

Hi Brad:

First, I sent you an email response on the status of the ~~six~~ documents on Friday, 6/19/2020, after Chipp Reid responded to me. I guess you have not seen that email yet.

Second, regarding this statement you made in your email below:

"I emailed last week asking for confirmation on whether EPA approved markup for 2020-5854, 5900, and 5896. I think we're ready to move, but I had no record of those being approved by EPA."

Did you send your email to the FRLiaisons email box or to a specific editor?

Further, for clarity, the documents you stated you were inquiring on are:

1. Document number 2020-5854, FRL-10006-74-OAR, which belongs to Stephanie Morris.
2. Document number 2020-5900, FRL-10006-88-OAR, which belongs to Stephanie Washington.
3. Document number 2020-5896, FRL-10006-94-OAR, which belongs to Stephanie Washington.

Again, please see the email response I sent you on Friday, 6/19/2020, as it will state the status of the above documents. Also, regarding Document number 2020-5854, FRL-10006-74-OAR, which belongs to Stephanie Morris; On Friday, 6/19/2020, Stephanie Morris stated to me the following regarding this document:

FRL-10006-74-OAR; Stephanie Morris states that the EPA program approved the edits, and she conveyed this to you. Stephanie Morris is on leave today, 6/22/2020. I will let her respond to you directly on this when she returns tomorrow.

As for items number 2. and 3. above, which belong to Stephanie Washington, she sent your edits dated 5/27/2020 to the EPA program on 6/19/2020 for review and approval. Stephanie Washington will contact you directly once she gets and update from the EPA program.

Thanks,

Elizabeth,

I emailed last week asking for confirmation on whether EPA approved markup for 2020-5854, 5900, and 5896. I think we're ready to move, but I had no record of those being approved by EPA.

I'll be in and out this morning, but if this wasn't settled a Friday (I have about 120 emails to go through), I'm sure we can today.

Hi Chipp:

Understood and thanks for your prompt response. It's appreciated.

Brad:

I have consulted all the EPA FR editors, and here is where we stand regarding these six documents:

1. **FRL-10006-70-OAR**; on 6/1/2020 Stephanie Morris sent you additional edits from the EPA program. She has not heard back from you on those additional EPA program edits sent on 6/1/2020.
2. **FRL-10006-74-OAR**; Stephanie Morris states that the EPA program approved the edits, and she conveyed this to you.
3. **FRL-10006-76-OAR**; Patricia Brooks states that the EPA program approved the edits, and she conveyed this to you.
4. **FRL-10006-87-OAR**; Elizabeth Thomas states that the EPA program approved the edits, and I conveyed this to you.
5. **FRL-10006-88-OAR**; Stephanie Washington sent your edits from 5/27/2020 to the EPA program today, 6/19/2020, and is awaiting a response from the EPA program.
6. **FRL-10006-94-OAR**; Stephanie Washington sent your edits from 5/27/2020 to the EPA program today, 6/19/2020, and is awaiting a response from the EPA program.

Sounds good. Remember, I should get started moving them by 2 pm to keep July 2 as a starter (possible I could do it afterward, but the more time in production before deadline the better).

I should have brought that other date up yesterday. Just so many devils in the details over here these days ☺

Brad, we are working on confirming the FRL numbers with the FR doc number; and I emailed the program office regarding the dates. I will email you as soon as I hear back from everyone.

Good morning Brad, the program office states:

Hi Stephanie, We accept the OFR edits except for a typo located on page136. See our comment bubble. With this adjustment we approve the OFR edits. As a reminder, please note that, due to IBR material, several other documents must publish before this document can publish. See correct order of publication below:

IBR approval #	FR doc #	EPA Doc
EPA-2020-00010	FR 2020-05901	Cellulose
DPA-2020-00011	FR 2020-05898	Ethylene
EPA-2020-00013	FR 2020-05900	OLD
EPA-2020-00015	FR 2020-05908	Coatings 3
EPA-2020-00016	FR 2020-05854	Paper and Other Web coatings
EPA-2020-00023	FR 2020-05896	Site Remediation

This ordering sequence has been coordinated w/Miriam Vincent. Thanks.

Good afternoon,

Attached is markup for review. I know this one is conditional on some other submissions. We're keeping pretty far behind with all the COVID documents coming in, so it may take a little longer to get markup for the others. If something in one depends on another and I've questioned it, you can point out another doc may be the answer.

Thanks,

Hello,

This rule is one of the block that has special publication order instructions. Because I'm still working through others, I set this aside when you returned markup. Went to incorporate your changes, etc., and discovered that not all the comments were addressed. One in particular requires EPA information. If you search by comment, I've highlighted reply comments in yellow.

Thanks,

Thanks for the publication instructions. I knew there was a plan, and the docs are marked for it, but it's nice to get it spelled out here. I'm gradually getting to the others, so I'll be in touch. It's still Crazy Town here.

Good afternoon,

I've gotten through all the documents submitted way back in March. I know we've traded markup in the time since on some of these, but since several depended on the actions in others, it's best if you review all again for accuracy's sake.

Please review all of them, as several have new edits and one or two may be our first pass-backs. In 5898, I explain some of the edits that EPA questioned/explained at its end last time.

Some need decisions or perhaps language, like headings, in places.

Hopefully we're on the verge of finally moving these things along.

Thanks,

Brad Brooks

Hi Stephanie, We accept the OFR edits except for a typo located on page136. See our comment bubble. With this adjustment we approve the OFR edits. As a reminder, please note that, due to IBR material, several other documents must publish before this document can publish. See correct order of publication below:

IBR approval #	FR doc #	EPA Doc
EPA-2020-00010	FR 2020-05901	Cellulose
DPA-2020-00011	FR 2020-05898	Ethylene
EPA-2020-00013	FR 2020-05900	OLD
EPA-2020-00015	FR 2020-05908	Coatings 3
EPA-2020-00016	FR 2020-05854	Paper and Other Web coatings
EPA-2020-00023	FR 2020-05896	Site Remediation

This ordering sequence has been coordinated w/Miriam Vincent. Thanks.

Subject: 2020-05854 FRL-10006-74-OAR

Good afternoon,

Attached is markup for review. I know this one is conditional on some other submissions. We're keeping pretty far behind with all the COVID documents coming in, so it may take a little longer to get markup for the others. If something in one depends on another and I've questioned it, you can point out another doc may be the answer.

Thanks,

Brad Brooks

Good morning Brad, attach is the response to one of the six documents that are a part of the series of Part 63 rules. The program office states the following:

Hi Stephanie, Please see our comment bubble responding to OFR discussion on page 157. We have changed the date instructions in Table 2 from 366 days to reflect 1 year. The change is made in redline/strikeout on pages 157 through 161. With this correction made, we approve the document for publication. Thanks.
